AutoStreamPro

AutoStreamPro is designed to remove the post-stream workload for creators who want consistent short-form content without editors or manual clipping. It monitors your livestream in real time and captures genuine moments **only if they occur**, then formats and posts them to short-form platforms within approximately 12 hours.

No guarantees. No manufactured clips. No hype.

What AutoStreamPro Does

– Monitors live streams (Kick, Twitch, YouTube)

– Detects real moments as they happen

– Captures and trims those moments

– Formats clips for Shorts, TikTok, and Reels

– Batches and posts automatically within ~12 hours

What AutoStreamPro Is Not

– No analysis of past VODs

– No guaranteed clip counts

– No guaranteed growth or virality

– No fake or AI-generated moments

Who This Is Best For

– Streamers who want consistency without burnout

– Creators without editors

– Kick streamers struggling with discovery

– Twitch / YouTube streamers who know Shorts matter but hate the workflow

– Influencers who only recommend tools they can stand behind honestly

Influencer Program (Clear & Capped)

– 10% of gross subscription revenue

– Applies to the **$19.99/month** Starter plan

– Paid monthly via First Promoter

– For 12 months per referred customer

– Maximum payout per customer: ~$24

– No lifetime commissions

Why This Exists

Most creators don't lack good moments. They lack the time and energy to turn those moments into consistent content. AutoStreamPro doesn't promise results — it removes friction.

Next Step

If this sounds relevant, the next step is a short (7-minute) walkthrough showing exactly how the system works — including its limitations. No sales pitch required.
